Listing of Claims

1. (Currently Amended) A steering wheel workstation support for a laptop computer, the laptop computer having a base and a display foldingly related to one another, the base having a front edge, the workstation support comprising:

a support portion, the support portion having a lower region and an upper region and a back and a front, dimensioned to support on its front at least the base of the laptop, wherein the support portion contains a plurality of arms, each arm terminating in a hook and wherein a crosspiece connects the arms;

a lip at the lower region of the support portion for receiving the front edge of the base of the laptop;

a hook arrangement disposed to hook onto a steering wheel in the upper region of the support portion; and

a standoff member, located on the back of the support portion, that is positioned to cause the lower end of the support portion to be displaced from a lower part of the steering wheel, the standoff member extending from the back of the support portion by first and second supports that meet at a junction behind the back of the support portion.

2. (Original) The steering wheel workstation support of claim 1, wherein the hook arrangement includes two hooks.

3. (Original) The steering wheel workstation support of claim 2, wherein each hook has a terminus that curves away from the support portion.

4. (Original) The steering wheel workstation support of claim 1, wherein the lip contains retainers disposed on opposite sides of a central region.

5. (Original) The steering wheel workstation support of claim 4, wherein the central region is void of the retainers.
6. (Original) The steering wheel workstation support of claim 1, wherein the support portion has height measured along its surface perpendicular to the lip of not less than 9 inches.
7. (Cancelled)
8. (Cancelled)
9. (Original) The steering wheel workstation support of claim 1, wherein the standoff member is configured in relation to the support portion to cause the workstation support, when in use on a steering wheel, to present the base of the laptop, to a user seated in a vehicle behind the steering wheel, at an obtuse angle relative to the horizontal, as measured from the front of the support portion, convenient to use of a keyboard on the base of the laptop.
10. (Original) The steering wheel workstation support of claim 1, wherein the standoff member has the shape of an inverted "V".
- 11.-18. (Cancelled)
